

Academic Year and Semester Programmes

We are pleased to offer these great, value for money, long term programmes. These are the right choice for learners who have time to give to really master their English. Available as either 24 or 32 week programmes, with flexi-holiday dates, they are the most economical way to study for an extended period.

The programmes also offer choice – if you are of the right level, you can move to either IELTS preparation or one of our ESP programmes. The academic team will advise you throughout your course of study and help you make the right choice at the right time to suit you. Holiday can be added to the programmes at any time with no additional charge.

Holiday can be added up to a maximum of 4 weeks in one programme.
Start dates for Academic Year and Academic Semester – any Monday (Tuesday, if the Monday is a Public Holiday)
